

PC Panel ANSOLIN DIY

Technical information

Technical information	
Width	250 mm
Thickness	Ca. 1 mm
Weight	Ca. 1,9 kg/m ²
Flammability classification	B-s1,d0 nach EN 13501

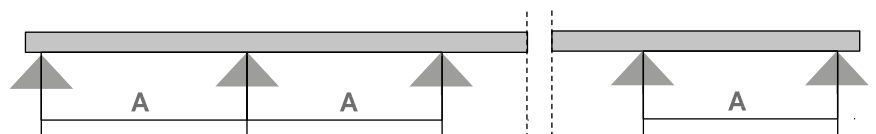

With a width of 250 mm and a weight of only approx. 1.9 kg/m², the single-layer PC panel ANSOLIN is the ideal product for functional and visually appealing translucent roof glazing.

The multifunctional panel consists of highly impact-resistant, UV-stabilized polycarbonate and can be produced in numerous colours. The area of application extends from roofing for terraces, carports, greenhouses to canopies and much more.

Recommended span widths

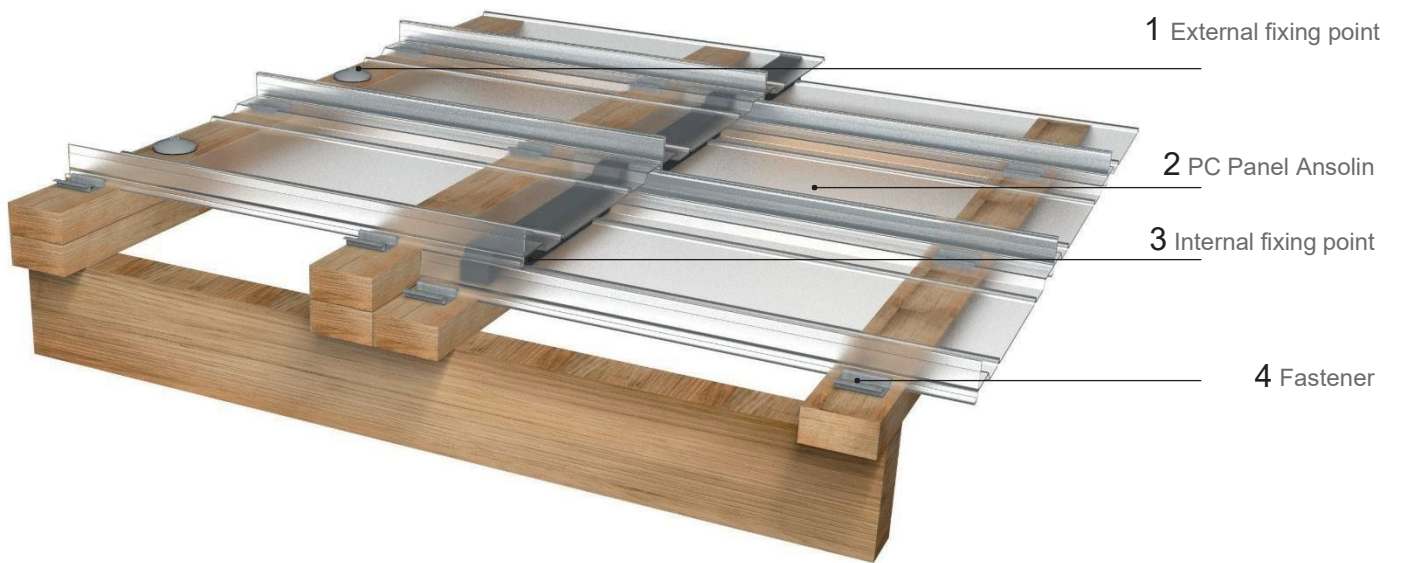

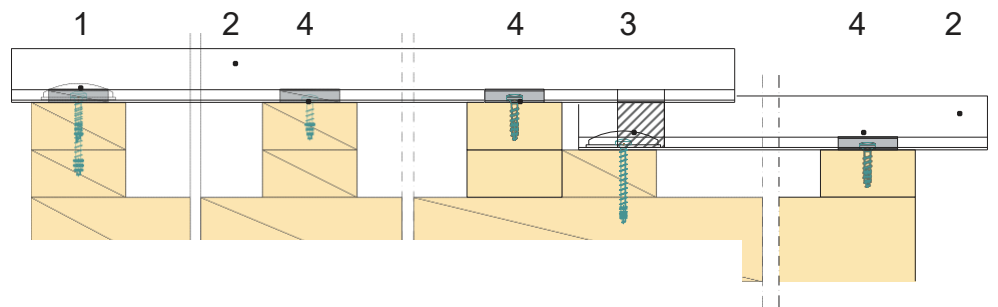

Distance A		
0,8 kn/m ²	1,0 kn/m ²	1,2 kn/m ²
0,70 m	0,60 m	0,50 m

The spans shown here are recommended, non-binding guideline values based on internal tests. This information does not replace any country-specific or building law evidence that may be required.
